U.C. File No. Est 71/4929/452 dated, Bangalore, 10th March 48

RE: RAN MTT D.I.I. C.F.I.

3) The recommendation of the President, City Municipal Council is to re-entertain Mr. L.F. Mannas as an additional Veterinary Inspector to be placed in charge of slaughter house inspection on the plea that the services of a whole time Veterinary Inspector was necessary to look after solely the conservancy cattle and the dairy and the passing of hackney carriage animals, the slaughter house work being looked after by some other hand.

4) In this connection I am to invite kind reference to (a) my letter No. Est 71/45-46 dated 14th November 1946 copy enclosed as reference to the President, Bangalore City Municipality pointing out that Mr. Mannas is not a qualified Veterinary Officer and that it is not right to designate him as such in to (b) Government Notification No. 5074/1122-46-3 dated 27th Nov 1946 copy enclosed referring certain restrictions in the matter of slaughter, not directing a local municipality to insist on an examination of sheep or goats before and after slaughter and for this purpose to enlist the service of qualified local Veterinary Inspectors. It was with the latter object that the whole time services of a departmental Veterinary Inspector was placed at the disposal of the above municipality, as reported by the President, Mr. Mannas retired from service after enjoying a number of extensions to his service.

5) Apart from the general slaughter house regulations, the population of this greater City was exposed to, a great deal of meat (slaughter house) inspection being entrusted to an unqualified man of the type of Mr. Mannas, there were also numerous complaints from the public, which was also brought to the notice of Mr. Water Singh, Vice Chairman of the Indian Congress of Agricultural Workers, during his last visit to Bangalore by the members of the Gorakshana Sangha and other bodies, that Mr. Mannas' dealing with regard to inspection of animals including cattle meant for slaughter were highly questionable. Mr. Mannas had however managed to retain his position as slaughter house Inspector even after such reprimand, until he was replaced by a departmental officer to take over the duties. The consequences were again some to have been brought to the attention of the municipal authorities in the recommendation for his re-appointment as slaughter house Inspector.

6) In the context of the above facts that Mr. Mannas is not qualified to be entrusted with the duties of a departmental officer, public health importance, I am not in favour of appointing him re-appointment as slaughter house Inspector. There is a public health officer in Bangalore whose whole time services are placed at the disposal of the municipality for the purpose of being allowed to look after the work.

7) The record has no carriage and no reference to the local Veterinary Inspector. It is also to be noted that the local Veterinary Inspector is not a full time officer. It is also to be noted that the local Veterinary Inspector is not a full time officer. It is also to be noted that the local Veterinary Inspector is not a full time officer.

Reentertainment of Mr E P Lannas as an additional  
Veterinary Inspector  
---

I have the honour to state that one Mr Lannas was formerly  
Slaughter House Inspector in this Municipality under the designation  
of Veterinary Inspector. Another departmental Veterinary Inspector  
working in the Mysore Range is looking after the cattle of the  
Municipal Conservancy carts for which he is being paid a monthly  
allowance of Rs 25/- for paying visits twice or thrice a week.  
Mr Lannas was to retire on 30-6-47, a reference has been made  
to the Superintendent of Veterinary services to post a qualified  
Veterinary Inspector. Accordingly one hand has been posted to  
this Municipality.

In the meanwhile, the Municipality started a model dairy  
and for this purpose about 30 costly buffaloes have been purchased  
and they have been housed in the Municipal Farm. There are also  
a couple of stud bulls. Recently one stud bull and two buffaloes  
died suddenly. In view of the above circumstances, the Council felt  
that a wholetime qualified veterinary Inspector was necessary to  
look after solely after the Conservancy cattle and the dairy and  
the passing of the hackney carriage animals, the slaughter house  
work being looked after by some other hand.

To keep down the extra cost as low as possible they  
resolved that Mr Lannas, retired Veterinary Inspector may be re-  
entertained on Rs 75/- P M (his pension of Rs 50/- + Rs 25/-)

Proceedings of the adjourned General Meeting of the Municipal Council held in the Municipal Offices on Saturday the 27th September 47 at 4 P M

-----

150 Office Note dated 10-8-47 regarding the re-employment of Mr Lannas as an additional Veterinary Inspector

The Inspector Mr Lannas may be paid Rs 75/- P M and re-employment retained, the inspection allowance of the Sewage Farm being done away with. The re-employment to be for a period of one year

Letter No 71/45-46 dated 14th November 1946 from the Superintendent, Veterinary Animal Husbandry Services in Mysore, Bangalore, to The President, City Municipal Council, Mysore

- - - - -

Adverting to Government Order No L 5647-9/L 11-46-51 dated -- November 1946, sanctioning an extension of 6 months' service to Mr Lannas Veterinary Inspector, City Municipality, Mysore, with effect from 6-10-46, I have the honour to state that I will be posting a qualified Veterinarian of this Department, to the Mysore Municipality to relieve Mr Lannas on 6-4-1947

In this connection I have to bring to your kind notice that Mr Lannas has been designated as a Veterinary Inspector - Vide your letter No MS-C 238-44/45-6 dated 5-10-46 addressed to Government, which necessarily implies that he is a regularly qualified man licenced to practise as Veterinary Inspector, whereas it is reliably learnt that Mr Lannas does not possess any such qualifications, as he does not hold either a Degree or Diploma from any of the Veterinary Colleges

In the above circumstances, it is proposed to designate him as Veterinary Inspector. I therefore request that Mr Lannas may be designated as Slaughter House Inspector and the designation of Veterinary Inspector may if any in an of the record relating to him in your office may indly be caused to be expunged

SUBJECT Re-entertainment of Mr E P Mannas as an additional  
Veterinary Inspector in Mysore City Municipality  
for a period of one year  
-----

With reference to your letter No M4-124/47-48 dated 19th January 1948 on the above subject, I am directed to invite reference to letter No Est 71/45-46 dated 14th November 1946 addressed to you by the Superintendent, Veterinary and Animal Husbandry Services in Mysore, pointing out that Mr Mannas is not a qualified Veterinarian and that it is not right to designate him as such. Reference is also invited to Notification No L 5674/M1 133-46-3 dated 9th November 1946 issuing instructions regarding enforcing and certain restrictions in the matter of slaughter and directing all Municipalities to insist on an examination of sheep and goats before and after slaughter and for this purpose to enlist the services of qualified local Veterinary Inspectors. It was with the latter object that the whole-time services of a Departmental Veterinary Inspector were placed at the disposal of the Mysore City Municipality, when Mr Mannas was retired from service, after granting him a number of extensions.

Apart from the grave risks which the non-Vegetarian population of the premier city was exposed to as a result of meat (slaughter house) inspection being entrusted to an unqualified man of the type of Mr Mannas, it is reported that there were also numerous complaints from the public against him and that his dealings with regard to inspection of animals including cattle meant for slaughter, were highly questionable. As there is a qualified departmental man whose whole-time services have been placed at the disposal of the Municipality for the purpose he may be allowed to do this work.

As regards the hackney carriage and pony inspections which are

done once in six months, the local Veterinary Inspector may be allowed to continue to do so, as this arrangement is working satisfactorily. The periodical inspection of conservancy animals as also the dairy animals will be best done under the existing arrangements, by the local Veterinary Inspector who is invariably a senior officer of experience, the routine feeding and attention to these animals being entrusted to a Departmental Salustri, whose wholetime services the Municipality may engage at a small additional cost.

I am directed to request that the above views may be placed before the Municipal Council who may consider the whole question again and make proposals.
